Product Name :

Circulating water bath with cooler unit

Product Code :

SLE/CE/55

Description :

Specifications:

- **Capacity:** 40 L
- **Power:** 2000 W
- **Temperature range:** +5 to +60°C
- **Accuracy:** $\pm 1\%$
- **Inside dimensions:** 550x360x200 mm
- **Outside dimensions:** 830x480x950 mm
- **Weight approx.:** 62 kg
- **Two channels electronic thermoregulator:** heating/cooling with digital display.
- Automatically maintains the set temperature.
- A multi-purpose unit usable for many other applications.
- Complete with re-circulating unit for temperature uniformity.
- All the other standards require conditioning temperatures from 25 to 60 °C.
- Internal surfaces are polished stainless steel with a sheet steel insulated outer case.
- This unit can also be used for many applications either for Asphalt or for Cement testing for curing in water cement specimens 40x40x160 mm, and for storing the hydrated samples at a temperature of 20°C.
