

Product Name :

Vapour Absorption Refrigeration Trainer

Product Code :

SLE/MCE/84

Description :

Specification:

- Absorption refrigeration systems operate using thermal energy e.g. from industrial waste heat or from solar collectors.
- In small mobile systems, such as a camping refrigerator or minibar in a hotel, the required heat is generated electrically or by gas burner.
- This systems use the principle of liquids evaporating already at low temperatures when pressure is reduced.
- In process technology systems the resulting waste heat can be used for cooling.
- **Working medium:** ammonia-water solution
- **Auxiliary gas:** hydrogen
- **Electric heater:** 125W
- **Evaporator heater, adjustable:** 50W
- **Dimension:** 800 x 750 x 1200 mm
- **Weight (approx.):** 85 kg

Measuring ranges:

- **Temperature:** 4x -80...180°C
- **Power:** 0...150W

Power Supply required:

- 230V, 50Hz, 1 phase
- 230V, 60Hz, 1 phase

Contact Science Lab for your Educational School Science Lab Equipments. We are best high school maths lab kit manufacturers, high school physics lab equipment, high school science kits exporters, high school science lab equipment, high school science lab equipment manufacturers, high, school science lab equipments suppliers.
