Product Name :

Atom Molecular Models Set

Product Code :

SLE/Mo/03

Description :

Material: PP (atom), LDPE (connecting key), ABS (packing box)

Basic colors for atoms: White, red, black, grey, light blue. (also offer customized colors.)

Teaching instrument such as molecular models, crystal models

Basic colors for connect chain: White, purple, grey, light blue. (also offer customized colors.)

A full range of molecular models with domestic standard and international standard.

This is a brand Science Lab Export and excellent molecular model set. It can be easily build molecular models for aliphatic and aromatic hydrocarbons, alcohols, aldehydes, ketones, carboxylic acids, esters, ethers, amines, amides, halogen compounds, sugars, fats, amino acids, alkaloids and representative of most other families of organic compounds. Science Lab Export, Your molecular model set will bring to life such concepts as stereoisomerism and conformational analysis, and help you relate the physical and chemical properties of compounds to their molecular structures.

Contact Science Lab for your Educational School Science Lab Equipments. We are best technical educational instruments supplier, technical institute lab equipments, technical lab equipments manufacturers, top lab equipments manufacturers, tvet lab equipment manufactruers, vocational training lab equipments exporter, vocational training lab equipments manufacturers.
