Product Name :

Magnetic Repulsion

Product Code :

SLE/EAM/29

Description :

The separation can be measured by using a direct reading 'wedge' gauge and the force is provided by applying standard slotted masses on the top plate.

A simple system for investigating the force of repulsion between two high strength neodymium magnets.

Investigate magnetic repulsion and balanced forces.

Contact Science Lab for your Educational School Science Lab Equipments. We are best science educational equipments, science educational instruments, science lab equipments manufacturer, science laboratory instruments exporter, scientific educational equipments, scientific educational lab equipment.
