Product Name :

Molecular Model Set – Benzene C₆H₆,
Hybridized

Product Code :

SLE/Mo/22

Description :

Benzene C₆H₆, Hybridised

Molecular models help the teacher convey a concrete representation of the molecular world.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices.

Excellent quality models produced from precision engineered moulds and materials.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

Each kit comes in a durable storage case with compartments for segregation of parts.

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.

Contact Science Lab for your Educational School Science Lab Equipments. We are best school science lab equipment suppliers in india, school science lab equipments exporter, school science lab equipments manufacturers, school science lab equipments manufacturer, school science lab equipments supplier, school science lab equipments suppliers.
