Description :

Our general purpose laboratory incubators are reliable, cost-effective and suit most laboratory applications including drying, heating and general use.

The exterior cabinets are manufactured from sheet steel finished in powder coat paint for a durable and easy clean finish.

The chamber is made from aluminium coated steel.

The plated steel shelves are adjustable on fixed shelf runners.

A top vent/access port is fitted and can be used for inserting thermometers and monitoring probes into the chamber.

Indicator lamps include power, heating and safety protection.

There is also PID digital controllers with dual display (set and actual) and programmable ramp and dwell controllers.

Our incubators are fitted with direct reading calibrated thermostats for both control and overheat safety protection.

Technical Specifications :

Litres: 100

Chamber: Aluminium Clad Steel

Max Load Height (mm): 360

Max Temperature (°C): 100

Fluctuation (°C): 0.75

Power (Watts): 750

Shelf Positions: 3

No. Of Shelves: 4

Ext. Meas. (H x W x D): 735 x 590 x 567

Int. Meas. (H x W x D): 445 x 490 x 460
