

Product Name :

Electroscope, Needle

Product Code :

SLE/PHY/168

**Description :**

The electroscope is great for hands on experience with electrostatic principles in physics classrooms and labs.

Front glass window slides up to allow insertion of ionising material in chamber.

The sheet metal walls of the electroscope are attached to a plastic base and top.

This light weight metal blade deflects when the electroscope plate is charged.

A light-weight metal vane is used as a pointer in the electroscope.

A graduated scale is provided to measure the angle of the deflection.
