

**Product Name :**

Solar Kit Basic

**Product Code :**

SLE/PHY/213

## Description :

For quantitative experiments with the Solar-Basics in Junior High School you need the Solar-Kit Basic.

The power module is the most compact power supply for experiments on the market and the AV module makes voltage and current measurements as simple as possible.

With the enclosed Smart Control components, an innovative measuring and control system is available.

A potentiometer, the basic unit and cables complete the product.

### Experiments:

Mainly quantitative experiments with the leXsolar-Basics

### Technical Specifications :

Components:

1x Power Modul

1x Carton

1x Test lead black 25 cm

1x Test lead red 25 cm

1x Test lead black 50 cm

1x Test lead red 50 cm

1x Insert Kit Basic

1x Solar-Base unit Large

1x Potentiometer Module

1x AV-Modul

1x Layout diagram Kit Basic

1x Info sheet initial startup

Contact Science Lab for your Educational School Science Lab Equipments. We are best physics lab equipment supplier, physics lab equipment suppliers in ambala, physics lab equipments manufacturers, physics lab equipments suppliers, physics labware, school educational equipments.
