Product Name :

Solar Photovoltaic Ready-To-Go

Product Code :

SLE/PHY/221

Description :

This fully equipped experiment system can be used wherever you are without further components.

The scope of experiments ranges from simple trials demonstrating the basic characteristics of solar energy, to more challenging experiments dealing with topics like IV characteristics or temperature dependency of solar cells.

Because of the large range of potential experiments, the product is also suitable for internal workshops in companies as well as a demonstration kit for sales representatives.

This kit already includes all necessary ancillary equipment, like measuring equipment, and is enclosed in an aluminium carry-case with heavy-duty foam inserts.
