## Description :

A revolutionary low-maintenance desk mat with virucidal technology.

Virucidal Technology touch point coverings have been developed using the latest antiviral technology.

Desk Pad can be adhered to almost any surface and will protect users from up to 99.5% of viruses, including Covid 19.

Make the desks in your school or business virus-free with our NEW self-cleaning material.

Embedded with silver particles for highly effective antivirus protection, Desk Pad uses ground-breaking technology to ensure viruses are quickly eradicated from the surface after it has been touched.

It is a self-cleaning surface covering, robust and a cost-effective alternative to antiviral sprays and toxic cleaning products.

This versatile new antiviral material can be cut to neatly fit any shape or size of surface and will play an essential role in helping businesses significantly reduce the time and cost associated with antiviral cleaning.

Customers throughout the industries will be reassured to know that a company uses Safe Surface to protect them from Covid 19.

### Technical Specifications :

The material is lightweight (510g/m<sup>2</sup>)

Fire Classified M1

**Dimensions:** 800mm x 500mm

**Size:** Large

Pack of 2.
