

Product Name :

Micrometer

Product Code :

SCL105/01

**Description :**

Horseshoe micrometer

A Micrometer sometimes known as a Micrometer Screw Gauge, is a device incorporating a calibrated screw widely used for accurate measurement of components in mechanical engineering and machining as well as most mechanical trades, along with other metrological instruments such as dial, vernier, and digital calipers.

Made of nickel-plated brass with ratchet top.

Accurately machined stainless steel rod with range 0-25 x 0.01mm.

Lock type.

For outside measurements up to 25mm.

Precision: 1/100mm.

Ratchet micrometric screw

Maximum measured length 25 mm

Tungsten carbide alloy rollers

Minimum measuring accuracy 0.01 mm

Storage plastic box and calibration standard included
