Product Name :

Protein Model

Product Code :

SCL257/0149

Description :

DESCRIPTION :-

PVC, non-toxic dyes, with mountable parts.

It is a demonstrated model of biology teaching in school and can also be used as a reference for a biology major in colleges and universities.

Ideal model for teaching biological classes and abortion screening education to students.

The model can increase students' interest in learning, and the teacher can explain it more intuitively.
