**Product Name :**

Apparatus for Demonstrating the Propagation of Waves

**Product Code :**

SCL-351/028

**Description :**

DESCRIPTION :-

- The device demonstrates longitudinal and transverse waves.
- Consisting of a number of eccentric discs supporting a series of metal rods revolving on a handle, transverse waves are obtained. Longitudinal waves are obtained from the bent rods.
- Consisting of an aluminum pulley with no. Sp251 18 no. and another with no. Sp252 24, voltage values (0-6) V; number of vibrations 13;  $\varnothing$  of the vibrator 15.6mm, the dimensions of the wave propagation range (450mmx200mmx300mm).
