Description :

Features :-

- Low maintenance
- High functionality
- Precisely designed

DESCRIPTION :-

- Stereoscopic trinocular microscope with a camera and its accessories
- Ideal for teaching purposes
- Designed for observing and projecting specimens in 3D
- Compatible to data projectors
- Suitable for histology, microbiology, botany, virology and routine research applications
- LED illumination
- Quality optics for showing the detail and color of any specimen.
- Warranty for one year

Technical Data :-

- Observation Head : WF10X/20mm (micrometer), WF15X/15mm (micrometer), WF20X/10mm (micrometer)
- Auxiliary Lens 0.5X/165mm. 1.5X/45mm. 2X/30mm.
- Focus Brackets A1 focus frames, focusing hand wheel adjustable elastic , lifting range50mm.
- A3 industrial binding Focus Frame 2 (industry-specific)
- Base B2 Column transmission base , the upper and lower light source is a halogen lamp 12V15W (adjustable brightness)
- Other External Sources : Ring light / LED light / cold light illumination
- Photography Device : Photography connected tube (with PK bayonet), 3.2X photo eyepiece
- Imaging Device : 0.35X/0.5X/1.0XC type camera connected tube
- Power Supply : AC110/220V±10%,50/60Hz
