## Description :

### DESCRIPTION :-

- Kit consists of a baseboard, terminals,
- A set of metal connection pillars and a number of clip-on flexible connection strips and accessory units, allowing a variety of circuits to be constructed quickly and easily.
- Phosphor-bronze connection strips are so designed that when flexed a little they are easily slipped over the pegs where their natural spring holds them in position and ensures a good electrical contact.

The following components are supplied with each board :-

- 18 flash lamp bulbs, 1.25V, 0.2SA
- 9 connectors with lamp holder
- 12 plain connectors
- 1 connector with rheostat
- 1 rectifier
- 1 resistor
- 2 flexible leads with 4mm plug and crocodile clips
- 2 flexible leads with crocodile clips
- 2 crocodile clips
- 2 mounted bell pushes
- 2 soft iron nails, 50mm, square head
- 1 length bare copper wire, 20 s.w.g.
- 1 length bare ureka wire, 34 s.w.g.
- 1 length plastic-covered wire, 0.6mm
- 1 hardboard disc, drilled
- 4 pencil leads
- 1 piece copper foil 1 piece steel wool
