Product Name :

Bob/Metallic Sphere (Small) With Hooks

Product Code :

“SCL205/02”

Description :

DESCRIPTION :-

- Bob With Hook
- Used In simple Pendulum Experiment
- Material : Brass
- Diameter : 18mm.
- The pendulum bob provides one of the necessary tools for studying the physics of pendulum motion.
- Used with a full pendulum set up, it provides a visually and kinesthetically effective method by which to study pendulum physics.

Features:

- Highly durable
- Anti-corrosive
- High strength
- Long lasting shine
- Finely polished
- Robustness
