**Product Name :**

Digital Ph Meter(Pen Type)

**Product Code :**

SCL-577/038

## Description :

Model No. : "SCL-577/038"

### DESCRIPTION :-

- **Material :** Glass
- It adopts heat-resisting gel dielectric and solid dielectric double liquid junction structure; in the
- circumstances when the electrode is not connected to the back pressure, the withstand pressure is
- 0.4MPa. It can be directly used for 130°C sterilization.
- There is no need for additional dielectric and there is a little amount of maintenance.
- It is used in conjunction with 316L stainless sheath.
