**Product Name :**

IC Chip

**Product Code :**

SCL-449/121

## Description :

### DESCRIPTION :-

- IC Chip of different configurations/numbers
- The 555 timer IC is an integrated circuit (chip) used in a variety of timer, pulse generation, and oscillator applications.
- The 555 can be used to provide time delays, as an oscillator, and as a flip-flop element.
- Derivatives provide up to four timing circuits in one package application precision timing pulse generation sequential timing time delay generation pulse width modulation.
- Usage/Application: Electronics
- Mounting Type: DIP
- Type: Leaded
- Voltage: 5V
