

Product Name :

Gloves, Ultra Light Weight, Black

Product Code :

SLE/G/16

Description :

Sensilite is an ultra-lightweight black glove that outperforms cotton and nylon gloves. The polyurethane coating provides good abrasion resistance but still allows a very high level of dexterity for intricate and delicate tasks.

Features :

Polyurethane coating for optimal hand protection in lightweight applications.

EN level 4 of abrasion resistance and EN level 1 for cut resistance

Elastic nylon liner

Applications : Assembly of small pieces in Industries in environments that present a certain degree of dirt.
